

Seminars in Biostatistics

2009-2010

Location: Department of Biostatistics, Erasmus MC

Seminars

- **Tuesday October 20, 2009 (16-17h)** (Room Cq-C): Philippe Lambert (University of Liège, Belgium)
Title: *Smooth semi- and nonparametric Bayesian estimation of bivariate densities from bivariate histogram data*
- **Tuesday November 24, 2009 (16-17h)** (Room Cq-C): Dipankar Bandyopadhyay (Medical University of South Carolina, US)
Title: *A multivariate spatial factor model for clustered data with informatively present mixed responses*
- **Monday December 7, 2009 (16-17h)** (Room E21-69): Cathérine Legrand (Catholic University of Leuven, Louvain-la-Neuve, Belgium)
Title: *On the use of the frailty model to address a new aspect of the statistical validation of prognostic indices for survival endpoints*
- **Tuesday January 12, 2010 (16-17h)** (Room E21-69): Giancarlo Camarda (Max Planck Institute for Demographic Research, Rostock, Germany)
Title: *A general model for patterns and trends of digit preference*
- **Tuesday February 9, 2010 (16-17h)** (Room E21-69): Hélène Jacqmin-Gadda (INSERM U897, ISPED, Bordeaux, France)
Title: *To be announced*
- **Tuesday March 9, 2010** (Room TBA): Jeanine Houwing-Duistermaat (Leids Universitair Medisch Centrum, Leiden, the Netherlands)
Title: *To be announced*
- **Wednesday April 7, 2010 (16-17h)** (Room TBA): Sander Greenland (University of California, Los Angeles, US)
Title: *To be announced*

- **Tuesday May 18, 2010 (16-17h)** (Room E21-69): Niel Hens (Hasselt University, Hasselt, Belgium)

Title: *The statistical analysis of contact patterns relevant for the spread of infectious diseases*

- **June, 2010 (13-14h)** (Room TBA): Yudi Pawitan (Karolinska Institute, Stockholm, Sweden)

Title: *To be announced*
